

## Company Mission & International Networking Event “Artificial Intelligence (AI) on board in Paris 2019”

Paris, 13 – 15 February 2019

The **EEN Thuringen with its organisation STIFT**, as partner of the global Enterprise Europe Network (EEN), organizes in close cooperation with their network partners CCI Essonne and CCI Paris Ile-de-France, an **international networking event during the Techinnov event, 13-15 February 2019**.

The Techinnov is the reference event for the French innovation ecosystem. It brings together all key-players of the French innovation landscape, from well-known big players like Airbus, Faurecia, Renault and Air Liquide to the niche-players among innovative SME's. Not to forget the over 40 venture capital and business angel organizations. For both exhibitors and participants the Techinnov combines the advantages of a conference with the visibility provided by a trade show.

At our networking event you will be given the opportunity to meet-up with relevant representatives from different companies. In the preparation of this trip, we will make sure you will be connected to the right partners, based on your needs and preferences.

### Program (draft)

Wed 13 February 2019	Thu 14 February 2019
